

Concertina HR

HRIS Management System

Product Feature Guide (Developer Specification)

System Overview

The **Concertina HR Team TimeTracker & Time Away Management System** is an internal platform designed to manage Independent Contractor attendance, time tracking, leave requests, and internal communications.

The system will support **three levels of access**:

1. **Team Member Access** – Regular Independent Contractors
2. **Supervisor Access** – Team leads / managers
3. **Super Admin Access** – HR / system administrators

Each access level has different permissions and system visibility.

Authentication Module

Login Framework

Users must authenticate before accessing the system.

Required Fields

- **Username**
- **Password**

Additional Functions

- **Forgot Password**
 - Email-based password reset
 - Tokenized reset link with expiration

Optional (Recommended)

- Session management
- Role-based redirection after login
- Login activity logging

Role-Based Access Control (RBAC)

Role	Description
Team Member	Standard Independent Contractor access
Supervisor	Manages team attendance and approvals
Super Admin	Full system control

Main System Modules

Dashboard

The dashboard serves as the **primary landing page after login** and displays widgets relevant to the user role.

Dashboard Widgets

Clock In / Clock Out

Time tracking widget allowing Independent Contractors to record working hours.

Features

- Clock In
- Clock Out
- Display current working status
- Timestamp recording
- Prevent duplicate clock-ins

Additional Data

- Work duration
- Break tracking (optional future feature)

PFFD Credits / Time-Off

(PFFD = Pre-Funded Flex Days)

This module manages Independent Contractor leave credits and requests.

Displayed Information

- Remaining PFFD credits
- PFFD usage history
- Pending requests

Functions

- Request PFFD
- Edit pending request
- Delete pending request

Supervisor/Admin Functions

- Approve request
- Reject request
- View team PFFD balances

Announcements

Internal company announcements displayed in the dashboard.

Admin/Supervisor Capabilities

- Create announcement
- Edit announcement
- Delete announcement

Team Member Capabilities

- View announcements

Weekly Schedule

Displays Independent Contractor work schedules.

Features

- Weekly schedule view
- Assigned work schedule

Independent Contractor Action

- Request schedule change

Supervisor/Admin Action

- Approve or reject schedule change

Attendance Log / Summary

Displays attendance and work hour reports.

Filters

- Date range selection

Displayed Data

- Total hours rendered
- PFFD filed
- Approved extra hours (overtime)

Profile Module

Basic Information

Independent Contractors can view and edit their profile information.

Fields

- Full Name
- Position
- Department
- Immediate Supervisor
- Email
- Contact Number
- Emergency Contact Number
- Address
- Independent Contractor ID (optional)

Permissions:

Action	Team Member	Supervisor	Super Admin
View Profile	✓	✓	✓
Edit Own Profile	✓	✓	✓
Edit Any Profile	✗	Limited	✓

Holiday Management

Displays the official **Concertina holiday list**.

Data Displayed

- Holiday name
- Date
- Holiday type
- Description

Permissions

Role	Access
Team Member	View
Supervisor	View
Super Admin	Create/Edit/Delete

Team Directory

Displays the company directory of Independent Contractors.

Information Displayed

- Name
- Department
- Role
- Contact info

Permissions:

Role	Access
Team Member	View
Supervisor	View
Super Admin	Manage directory

Request Forms

Centralized repository for company forms.

Examples:

- HR requests
- IT support request
- Department-specific forms

Features

- Form list categorized by department
- Downloadable forms
- Online form submission (optional enhancement)

FAQ Module

Frequently asked questions for Independent Contractors.

Examples:

- How to file PFFD
- How to request schedule changes
- Payroll schedule
- Company policies
- Previous Announcements

Permissions:

Role	Action
Team Member	View
Supervisor	View
Super Admin	Create/Edit/Delete

Supervisor Access

Supervisors will have **all Team Member capabilities plus additional management features.**

Additional Supervisor Functions

Team Attendance Monitoring

- View team attendance logs
- Filter by team member
- Monitor hours rendered

Request Approvals

Supervisors can approve or reject:

- PFFD requests
- Schedule change requests
- Extra hours requests

Team Dashboard

Displays:

- Team attendance overview
- Pending approvals
- Team PFFD balances

Super Admin Access

Super Admins have **full system control and configuration access.**

Admin Capabilities

User Management

- Create user
- Edit user
- Deactivate user
- Assign roles

Schedule Management

- Set work schedules
- Modify schedules
- Assign shifts

Holiday Management

- Add holidays
- Edit holidays
- Delete holidays

Announcement Management

- Create announcements
- Schedule announcements
- Pin announcements to dashboard

System Configuration

- Manage PFFD credit policies
- Configure attendance rules
- Set overtime policies

Reporting (Recommended Feature)

Admin and supervisors should have access to reports.

Reports

- Attendance summary
- Independent Contractor work hours
- Time-off usage
- Overtime summary
- Absenteeism report
- Real Time Team Member Attendance Logs

Export Options

- CSV
- Excel
- PDF

Audit Logs (Recommended)

Track system actions for security and accountability.

Logged Activities

- Login attempts
- Clock in/out
- Request approvals
- Profile changes
- Admin actions

Concertina HR Time Tracker

Priority Features (MVP Scope for Development Timeline)

Purpose

This document outlines the **priority features (Phase 1 / MVP)** required to launch the Concertina HR TimeTracker system.

The focus is on **core payroll-critical functionalities**:

- Time tracking (hours worked)
- Leave / PFFD management
- Attendance monitoring
- Holiday management

These features must be completed first so the system can support **accurate payroll processing upon launch**.

Phase 1

CORE SYSTEM FOUNDATION

1. Authentication & Access Control (HIGH PRIORITY)

Goal: Secure user login and proper role-based access.

Features

- Login (Username & Password)
- Forgot Password (email reset with token)
- Session management
- Role-Based Access Control (RBAC)
 - Team Member
 - Supervisor
 - Super Admin

Notes

- Required before accessing any module
- Must support role-based redirection

TIME TRACKING (CRITICAL)

2. Clock In / Clock Out System

Goal: Track actual working hours of Independent Contractors.

Core Features

- Clock In
- Clock Out
- Timestamp recording
- Display current status (Working / Not Working)
- Prevent duplicate clock-ins

Required Outputs

- Total hours rendered

Future Enhancement (Optional for later)

- Break tracking

ATTENDANCE & REPORTING (CRITICAL)

3. Attendance Log / Summary

Goal: Provide accurate records for payroll computation.

Features

- View attendance history
- Filter by date range

Display Data

- Total hours rendered
- PFFD filed
- Approved overtime (if available)

LEAVE MANAGEMENT (CRITICAL)

4. PFFD Credits / Time-Off Management

Goal: Manage leave credits and requests.

Team Member Features

- View remaining PFFD credits
- View usage history
- Request PFFD
- Edit pending request
- Delete pending request

Supervisor/Admin Features

- Approve requests
- Reject requests
- View team PFFD balances

Notes

- Must integrate with attendance and reports
- Critical for payroll deductions

SCHEDULE MANAGEMENT (IMPORTANT)

5. Weekly Schedule

Goal: Define expected working schedule.

Features

- Weekly schedule view
- Assigned schedules per contractor

Team Member Actions

- Request schedule change

Supervisor/Admin Actions

- Approve / reject schedule changes

HOLIDAY MANAGEMENT (CRITICAL FOR PAYROLL)

6. Holiday Management

Goal: Ensure accurate payroll adjustments for holidays.

Features

- View holiday list (all users)

Super Admin Functions

- Add holidays
- Edit holidays
- Delete holidays

Display Data

- Holiday name
- Date
- Type
- Description

OUT OF SCOPE (PHASE 2+ / POST-LAUNCH)

The following modules can be developed **after MVP launch**:

- Announcements
- Team Directory
- Request Forms
- FAQ Module
- Advanced Reporting (exports, analytics)
- Audit Logs
- Break tracking
- System configuration enhancements

DEVELOPMENT PRIORITY ORDER (SUMMARY)

1. Authentication & RBAC
2. Clock In / Clock Out
3. Attendance Logs / Summary
4. PFFD / Time-Off Management
5. Weekly Schedule

6. Holiday Management

IMPLEMENTATION NOTES FOR FRANCO

- Focus on **data accuracy and integrity** (critical for payroll)
- Ensure **modules are interconnected**:
 - Time Tracking → Attendance → Reports → Payroll
 - PFFD → Attendance → Payroll deductions
 - Holidays → Attendance → Payroll adjustments
- Build with **scalability in mind** for Phase 2 features

MVP SUCCESS CRITERIA

The system is ready for launch when:

- Users can log in securely
- Contractors can clock in/out without errors
- Attendance records are accurate and exportable
- Leave requests are properly tracked and approved
- Holidays are correctly reflected in attendance

Output Data Report/Extraction should have the following:

Better if it's Excel

Sheet1 | Attendance summary

- Id Number
- Last Name, First Name, Full Name
- Total Number of Hours Work
- Total Number of Missing Logs/No Logs/Absent
- Total Number of PFFD Used in the current Cut-off
- Total Number of PFFD Used YTD
- Total Number of Remaining PFFD Credits

ID No.	Last Name	First Name	Full Name	Total Number of Actual Hours	Total Number of Missing Logs/No Logs/Absent	Total Number of PFFD Used in the current Cut-off	Total Number of PFFD Used YTD	Total Number of Remaining PFFD Credits

Sheet 2 | Detailed Report for each Team Members

Name:	Ahorro, Kathryn										
ID Number:	C-330
